*Democracy in Chains: The Deep History of the
Radical Right's Stealth Plan for America*
by Nancy MacLean

In a brilliant and engrossing narrative, Nancy MacLean pens an explosive exposé of the right's relentless campaign to eliminate unions, suppress voting, privatize public education, stop action on climate change, and alter the Constitution. The capitalist radical right has been working not simply to change who rules, but to fundamentally alter the rules of democratic governance. A Nobel Prize-winning political economist and white intellectual in the embattled Jim Crow South, James McGill Buchanan is exposed as the architect of the operation to alter every branch of government to disempower the majority to preserve the white elite's power in the wake of *Brown v. Board of Education*.
