ROCK ME ON THE WATER: 1974— The Year Los Angeles Transformed Movies, Music, Television, and Politics by Ronald Brownstein

Political analyst Brownstein (The Atlantic, CNN, Los Angeles Times) is the author of several well-regarded books about politics. In this book he is more interested in how politics and Hollywood ricocheted off each other, how America convulsed with change in the cultural realm, including more permissive attitudes about sex and drugs and a perception that the American dream was not only unattainable but rotten at the core. Brownstein describes how this new sensibility charged up the films, music, and television that Los Angeles exported to the rest of the country and the world, drifting from political activism to personal pleasure that enshrined the 1970s as the Me Decade.
